This is in response to the application filed 4/13/04.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Patch on 4/6/06.

The application has been amended as follows:

In claim 1 Line 6 replace "in" with - -on - - after "layer" and before "said".

Reasons for Allowance

2. Claims 1-11 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 limits the formation of forming a stacked nonvolatile memory device having a floating gate and a control gate to, forming a tunnel insulating layer and an impurity-doped silicon layer on the tunnel layer, laminating a lower and upper layer of a mask, patterning the upper layer, forming and etching a second upper layer, And etching the lower layer using the two upper layers as a mask. Yoshimasha (JP 10-

Art Unit: 2813

294367) teaches the masking method as claimed to form miniscule contact openings, but does not form a tunnel insulating layer, nor teach or suggest the method for patterning floating gates. Fukuo (JP 11-121638) forms the floating gate but does not teach or suggest a dual layered mask. Fukuo teaches a method for increasing the gate region, so there would be no motivation to potentially again increase the gate region by including a different process.

Claims 2-11 are allowed as being properly dependent upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
